

Play Area Donation

Thank you so much to Connor for his wonderful contribution towards our Play Area.

8 year old Connor was part of the "Nobody" project at Alexander's Public School in Burlington, where he attends grade 3 classes.

Students were asked to make a difference in their community by doing something to help people, animals or the environment. The students then wrote and drew about their good deed in the class scrapbook and attached a symbol of their good deed on the "Nobody" doll.

At the end of the project "Nobody" has become "Somebody" through all the great contributions that have been made.

Connor heard about the children at CAS needing something to play on while visiting with their Moms & Dads and thought this would be something he could help with.

Connor donated **two** weeks allowance with the hope that he could bring a smile to another child's face one day.

Future home of the Halton Children's Aid Society Play Area
